Index to volume 64, 1988

Authors and subjects are indexed together. There are two separate indexes of subjects and authors of current publications. (When there are four or more authors only the first three are indexed.)

ABECK D, JOHNSON AP, ALEXANDER F, *et al*: In vitro activity of eight antimicrobial agents against non-penicillinase-producing gonococci isolated in Munich, **233**

——, JOHNSON AP, KORTING HC: Characterisation of penicillinase producing gonococci isolated in Munich, 1981–6, **3**

ACQUIRED IMMUNE DEFICIENCY SYNDROME (AIDS). *See also* HUMAN IMMUNODEFICIENCY VIRUS

Changes in pattern of STD in an STD clinic in Copenhagen, **270**

ADOLESCENTS

Outpatients: premarket evaluation of Monofluor reagent for detecting *C trachomatis*, **165**

AFRICA. *See also* specific countries

Genotypes and phenotypes of β lactamase producing strains of *N gonorrhoeae*, **226**

AHMED-JUSHUF IH, ARYA OP, HOBSON D, *et al*: Ciprofloxacin treatment of chlamydial infections of urogenital tracts of women, **14**

——, BRADLEY MG, RAO PMS: Oropharyngeal carriage of *Neisseria gonorrhoeae* and its response to treatment in patients with anogenital infection (corr), **64**

——, MURRAY AE, McKEOWN J: Managing trichomonal vaginitis refractory to conventional treatment with metronidazole, **25**

——, PRATT BC, ARYA OP: Incidence of *Ureaplasma urealyticum* in endourethral swabs compared with first voided urine from men, **78**

——. *See* COKER DM, **280, 281** *(bis)*

ALAWATTEGAMA AB. *See* TAIT IA, **255**

ALDERETE JF: Does lactobacillus vaccine for trichomoniasis, Solco Trichovac, induce antibody reactive with *Trichomonas vaginalis?* **118**

——, PETERSON KM, BASEMAN JB: Affinities of *Treponema pallidum* for human lactoferrin and transferrin, **359**

ALEXANDER F. *See* ABECK D, **233**

ALLAY GEL

New topical agent to treat herpes genitalis, **395**

AMSTERDAM

Serovars, auxotypes, and plasmid profiles of PPNG strains with Asian type plasmid, **152**

ANOGENITAL INFECTION

Oropharyngeal carriage of *N gonorrhoeae* and treatment response, **64**

ANOGENITAL INTERCOURSE

in homosexual men: failure rate of condoms, **344**

ANSINK-SCHIPPER MC, BYGDEMAN SM, van KLINGEREN B, *et al*: Serovars, auxotypes, and plasmid profiles of PPNG strains with Asian type plasmid isolated in Amsterdam, **152**

ANTIMICROBIAL AGENTS

In vitro activity against non-penicillinase-producing gonococci isolated in Munich, **233**

Susceptibility of 60 *H influenzae* strains from genitourinary tracts, **185**

ANUS

Cytological screening to detect subclinical HPV infection in homosexual men attending genitourinary medicine clinic, **378**

ARYA OP, CUPIT P, DUNDON MB: Chancroid in Liverpool (corr), **66**

——. *See* AHMED-JUSHUF IH, **14, 78**

ATMA-RAM A. *See* EDWARDS A, **263**

AUSTRALIAN GONOCOCCAL SURVEILLANCE PROGRAMME; Penicillin sensitivity of gonococci isolated in Australia, 1981–6, **147**

AVONTS D, FRANSEN L, VIELFONT J, *et al*: Treating uncomplicated gonococcal infection with 250 mg or 100 mg ciprofloxacin in a single oral dose (corr), **134**

BACTEROIDES UREOLYTICUS

Role in NGU, **10**

BAKHTIAR M, SAMARASINGHE PL: Enoxacin as one day oral treatment of men with anal or pharyngeal gonorrhoea, **364**

BALSDON MJ, TOBIN JM: Recurrent vaginal candidosis: prospective study of effectiveness of maintenance miconazole treatment, **124**

BARRIO JL. *See* OLLÉ-GOIG JE, **198**

BASAL CELL CARCINOMA

Of penis: case report, **128**

BASEMAN JB. *See* ALDERETE JF, **359**

BCHIR A, JEMNI L, SAADI M, *et al*: Markers of sexually transmitted diseases in prostitutes in central Tunisia (corr), **396**

BECH K. *See* MUNCK LK, **39**

BEJEL

With gummatous laryngitis: case report, **202**

BELL TA: *Chlamydia trachomatis* infection in dizygotic twins delivered by caesarean section, **347**

BEWLEY S: Who defaults after treatment for gonorrhoea? Randomised controlled study of effect of an educational leaflet, **241**

BIGNELL CJ, MULCAHY FM, PEAKER S, *et al*: Measuring treatment compliance of men with non-gonococcal urethritis receiving oxytetracycline combined with low dose phenobarbitone, **312**

BIRKELAND NK. *See* FALK ES, **226**

BOND RA. *See* EVANS BA, **43**

BONE

Invasion in secondary syphilis: case report, **198**

BOOK REVIEWS

US: re-establishment of an old disease, **215**

CHILD ABUSE *See* SEXUAL ABUSE

CHLAMYDIA
Immunology, **139**
Parasitism: chlamydial cell envelope and the host cell, **353**

CHLAMYDIA TRACHOMATIS See also CHLAMYDIAL INFECTIONS
Bartholin's gland abscess, **352**
Causing seronegative arthritis in women, **353**
Cervical: relationship to preterm birth, **288**
Cervical infection in isolated Alaskan Eskimo population, **70**
Chlamydiae in genital tract of women in spontaneous early preterm labour, **212**
Cloning, expression, and primary structure of a binding protein, **212**
Comparison of serovars causing rectal and cervical infections, **212**
Contraceptive sponge's protection, **145**
Detection: fluorescein-conjugated monoclonal antibodies, **285**
Detection: multicenter comparative evaluation of microscopic methods and culture, **284**
Detection in endocervical specimens from asymptomatic women, **352**
Detection in women seeking abortion: comparison between cell culture and serology, **284**
Detection of cervical infection, **140**
Direct fluorescent antibody test for detecting cervical infection in routine gynecologic care, **139**
DNA hybridization analysis for detection of urogenital infections in women, **70**
Effect of prior STD on isolation, **140**
Effects of contraceptive hormones on replication in human endometrial cells, **139**
Endocervical Gram stains and mucopurulent cervicitis as predictors in female adolescents, **139**
Failure to pass transplacentally to fetuses of infected TO mice, **284**
Field follow-up for infected patients in an STD clinic, **353**
In vitro activity of ciprofloxacin, **70**
In vitro activity of nonoxynol-9 on infected McCoy cells, **140**
In vitro evaluation of CP-62,993, erythromycin, clindamycin, and tetracycline, **70**
Infection following legal abortion, **70**
Infections: comparison of erythromycin doses, **71**
Isolation from genital specimens: sensitivity of mitomycin-C treated McCoy cells, **284**
PID, **140**
Postabortal PID, **71**
Positive serology and male fertility, **139**
Protective role of magnesium in the neutralization by antibodies of infectivity, **353**
Recombinant murine gamma interferon inhibits serovar L1 in vivo, **285**
Restriction endonuclease analysis of DNA from biovars, **353**
Test-of-cure analysis by direct immunofluorescence after antimicrobial therapy, **140**
Screening in an STD clinic: diagnostic tests and clinical and historical risk factors, **353**
Serology in intraamniotic infection and controls, **212**
Serum-specific antibodies in premature contractions, **353**
Tests for cervical infection during routine gynecological visits, **139**
Transmission rate from mother to newborn, **212**
Urethral, in asymptomatic sexually active adolescent boys, **74**

CHLAMYDIAL INFECTIONS
Clinical evaluation, vaginal wet smear and cervical swab test in female adolescents, **212**
Infertility, **284**
Neonatal conjunctivitis: long term follow-up, **352**
Ocular and genital: specific effect of estradiol on genital mucosal antibody response, **139**
Prophylaxis of ophthalmia neonatorum, **352**

CIPROFLOXACIN
Chancroid: prospective, randomised clinical trial, **74**
In vitro activity against *C trachomatis*, **70**
Nonspecific vaginitis, **74**
Treatment of NGU, **71**

CLINDAMYCIN
In vitro evaluation against *C trachomatis*, **70**

CONDYLOMATA ACUMINATA *See also* ANAL WARTS; HUMAN PAPILLOMAVIRUS
Coexisting vaginal infections and multiple abusers in female children, **354**
Decreased interleukin-2 and interferon gamma production and depressed natural killer cell activity, **141**
DNA typing and diagnosis of sexual abuse in children, **141**
Female genital tract: infrared coagulation, **213**
Flat genital, in men: acetic acid screening, **354**
Natural interferon alfa, **286**
Penile: topical self-treatment, **141**
Proximal urethral: cryotherapy, **71**

CONTRACEPTIVE HORMONES
Effects on replication of *C trachomatis* in human endometrial cells, **139**

CONTRACEPTIVES
Bacterial flora of the cervix in women using an IUD, **288**
Effect of a copper IUD on microbial ecology of female genital tract, **357**
Intrauterine devices and PID: recent developments, **140**
Sponge: protection against *C trachomatis* and *N gonorrhoeae*, **145**

COPENHAGEN
Visitors of homosexual sauna clubs 1982–1983: STD, HIV antibodies and AIDS development, **356**

CORTICOSTEROIDS
Adjunctive therapy in *Pneumocystis carinii* pneumonia in AIDS, **74**

CP-62,993
In vitro evaluation against *C trachomatis*, **70**

CRYOTHERAPY
Proximal urethral condyloma acuminatum, **71**

CYTOMEGALOVIRUS (CMV)
And HIV type I: bidirectional interactions, **356**

Antibodies among general hospital patients and those attending an STD clinic, **357**
Esophagitis in AIDS: radiographic features, **214**
Ganciclovir for serious infections, **143**
Ganciclovir in gastrointestinal disease with AIDS, **144**
Pneumonitis: treatment with foscarnet in AIDS patients, **357**
Risk of transmission to health care workers exposed to AIDS, **73**

2,3′-DIDEOXYCYTIDINE
Phase I studies in severe HIV infection, **288**
DONOVANOSIS
Treatment, **357**
DOXYCYCLINE
Out-patient treatment of PID, **353**
With Augmentin: ambulatory treatment of PID, **353**
DYSURIA
And frequency: causes in women, **74**

EDINBURGH
Heterosexual spread of HIV, **355**
ENTEROBIUS VERMICULARIS
Invasion of human embryo, **145**
EPIDIDYMITIS
Etiology and manifestations in young men, **71**
Progress in management?, **212**
ERYTHROMYCIN
Comparison of doses in *C trachomatis* infections, **71**
In vitro assay to demonstrate high level resistance of a clinical isolate of *T pallidum*, **284**
In vitro evaluation against *C trachomatis*, **70**
Suboptimal efficacy against vaginal *U urealyticum*, **71**
ESTRADIOL
Specific effect on genital mucosal antibody response in chlamydial infection, **139**

FERTILITY
Male, and positive chlamydial serology, **139**
FOSCARNET
CMV pneumonitis in AIDS patients, **357**
FRANCE
PPNG isolated from 1979–1986, **139**
FUSIDIC ACID
Inhibition of HIV replication in vitro, **143**

GAMBIA
Human retroviral infections: prevalence and clinical features, **287**
GANCICLOVIR (9-(1,3-dihydroxy-2-propoxymethyl) guanine)
In cytomegalovirus gastrointestinal disease with AIDS, **144**
In serious cytomegalovirus infections, **143**
GARDNERELLA VAGINALIS
Chorioamnionitis: two cases and review of pathogen role in obstetrics, **288**
Detection in vaginal specimens by direct immunofluorescence, **144**
In prepubertal girls, **216***
Isolation in pure culture from uterine cavity of patients with irregular bleeding, **288***
Male upper genital tract: reinfection of female partner, **74**
Microbiological and serologic studies in intra-amniotic infection, **144***
In postabortal PID, **71**
Susceptibility to metronidazole, its bioactive metabolites and tinidazole, **74**
Transmission rate from mother to newborn, **212**
Urinary tract: incidence and significance in a hospital population, **288**
GENITAL TUMOURS
Integration of HPV type 16 DNA sequences, **141**
GENITAL ULCERS
Risk factor for HIV infection, **356**
GENITAL WARTS *See* CONDYLOMATA ACUMINATA
GENITOURINARY MEDICINE CLINICS *See* STD CLINICS
GONOCOCCAL INFECTION
Before: evidence of serum antibodies to *N gonorrhoeae*, **70**
Disseminated: underlying complement deficiency, **211**
Endocarditis: case report and literature review, **211**
Prophylaxis of ophthalmia neonatorum, **352**
Spectinomycin-resistant, in US, 1985–86, **212**
GONORRHOEA
Acute uncomplicated urogenital: cefodizime *v* cefotaxime, **352**
In incarcerated urban adolescents: prevalence and physical signs, **216**
Repeated: risk factors and clinic visitation patterns, **352**
GRANULOMA INGUINALE
Treatment, **357**
GUANINE *See* GANCICLOVIR

HAEMOPHILUS DUCREYI
Urethral infection in men, **357**
HAEMOPHILUS PARAINFLUENZAE
β-lactamase producing, from genital tract: isolation and molecular characterization, **74**
HEPATITIS
Delta virus and HIV virus in homosexual men: four cohorts, **287**
Severe: outbreak due to delta and hepatitis B viruses in parenteral drug abusers and their contacts, **215**
HEPATITIS B
Chronic: trial of adenine arabinoside monophosphate with human leukocyte interferon, **144**
Effect of antigenemia on pregnancy outcome, **357**
Loss of HBsAg with interferon therapy in chronic infection, **74**
Pregnant carrier: comprehensive antepartum screening, **74**
Screening in pregnancy, **144**
HEPATITIS B VACCINE
Booster doses, **357**
Duration of immunity: low-dose booster, **288**
Nonresponse in homosexual men, **74**
Timing of revaccination in healthy adults, **74**
HEPATITIS B VIRUS
Commercial condoms in prevention of infection, **216**
Detection of DNA in asymptomatic surface antigen carriers: relation to sexual transmission, **215**
DNA: in saliva and semen of chronically infected homosexual men, **74**

Infection, HIV infection and sexual behaviour in women attending a genitourinary medicine clinic, **287**
Occupational risk of infection in health care personnel caring for AIDS, **145**
Perinatal transmission in high-incidence countries, **215**
Risk of transmission to health care workers exposed to AIDS, **73**
Serology: loss of antibody to surface antigen, **144**
Simultaneous detection, of surface antigen and HIV antibody in human serum, **356**

HERPES GENITALIS
Detecting cells infected with virus in smears with fluorescent monoclonal antibodies, **71**
Effects on infants of first episode during pregnancy, **212**
First attack—acyclovir *v* inosine pranobex, **71**
Follow-up on 50 subjects vaccinated with Skinner vaccine, **71**
Frequently recurrent, in men: effect of chronically administered oral acyclovir on sperm production, **354**
Humoral antibody response, **354**
Leucocyte interferon for first episodes in women, **212**
Placebo-controlled trial of topical interferon, **286**
Recurrent: chronic suppression for six months compared with intermittent lesional therapy using oral acyclovir, **354**
Recurrent: dosage and safety of long-term suppressive acyclovir therapy, **354**
Recurrent: double-blind trial of interferon and placebo, **212**
Recurrent: HSV glycoprotein treatment, **286**
Topically applied interferon, **141**

HERPES SIMPLEX VIRUS
Acyclovir-resistant: improved DNA hybridisation for detection, **212**
An ELISA for detection of antigen in genital lesions, **141**
Antibodies among general hospital patients and those attending an STD clinic, **357**
Asymptomatic shedding during labour, **354**
Detection of antibodies to types 1 and 2 in human sera: comparison of western blot (immunoblot) and glycoprotein G-specific immunodot enzyme assay, **354**
Genital type 2 infections: differential effect of systemic acyclovir on antibody responses to individual proteins, **354**
Inactivation of types 1 and 2 by commonly used antiseptic agents, **286**
Prior type 2 infection as a risk factor for HIV infection, **286**
Recurrences after oral and genital infection, **140***
Routine viral cultures at delivery to identify exposed neonates, **354**
Type I: activation of HIV, **215**
Type 1 and type 2 neonatal encephalitis: difference in neurological outcome, **285***
Type 2: causing acute ascending necrotising myelopathy, **212**
Type 2: occupational risk of infection in health care personnel caring for AIDS, **145**
Type 2: type specific antibodies to glycoprotein G in pregnant women and in infants, **285**

HERPES ZOSTER
Risk of AIDS, **72***

HERPES ZOSTER OPHTHALMICUS
Severe, in young African adults: marker for HTLV-III seropositivity, **214**

HOMOSEXUAL MEN *See also* ACQUIRED IMMUNE DEFICIENCY SYNDROME; HUMAN IMMUNODEFICIENCY VIRUS
HIV and hepatitis delta virus: four cohorts, **287**
HTLV-III infected: syphilis, **211**
Nonresponse to hepatitis B vaccine, **74**
Hepatitis B virus DNA in saliva and semen, **74**
Lymphadenopathy: activated subpopulation of T8-bearing cells, **145**

HUMAN IMMUNODEFICIENCY VIRUS (HIV) *See also* ACQUIRED IMMUNE DEFICIENCY SYNDROME; HIV INFECTION; HUMAN T LYMPHOTROPIC VIRUS TYPE III
Absence of type 2 antibodies in six central African nations, **356**
Activation by herpes simplex virus type I, **215**
Alfa-2a recombinant interferon in thrombocytopenia, **215**
And HTLV-IV in West Africa, **72**
Antibodies among general hospital patients and those attending an STD clinic, **357**
Antibodies, STD and AIDS development: homosexual sauna clubs in Copenhagen, 1982–1983, **356**
Antibody correlates with decreased T helper lymphocytes in asymptomatic individuals, **73**
Antibody detection: six serological assays for detection in developing countries, **356**
Antibody screening in blood donors: new developments in ELISA verification, **215**
Antibody testing, **215**
Antibody testing: US infectious disease teaching hospitals and Minnesota Hospitals, **356**
Antibody that inhibits reverse transcriptase and association with inability to isolate virus, **215**
Antigen detection in cell cultures: ELISA, **356**
Antigen level decline in CSF during low-dose zidovudine treatment, **357**
Art gene product is required for replication, **287**
Bidirectional interactions between type I and CMV, **356**
Biologic features of type I that correlate with virulence in host, **356**
Blocking of type I infectivity by a soluble, secreted form of CD4 antigen, **215**
Cellular and anti-GP 120 cytolytic reactivities in type I seropositive individuals, **356**
Centres for Disease Control performance evaluation survey for 1985 and 1986, **287**
Chronic encephalitis: I. CSF diagnosis, II. Clinical aspects, **286**
Compulsory premarital screening, (USA), **143**
Condoms as physical and chemical barriers, **356**
Correlation of ELISAs for serum antigen and antibody to recombinant viral proteins with clinical outcomes in asymptomatic homosexual men, **142**
Cultural practices contributing to transmission in Africa, **214**
Detecting RNA in peripheral blood mononuclear cells by nucleic acid hybridization, **215**
Detecting in culture: comparison of antigen assay and reverse transcriptase assay, **215**
Detection of core protein in plasma by ELISA, **143**

Detection of seropositivity by competitive immunoassays using *E coli*, **287**
DNA sequences in brain of ELISA antibody-negative child with AIDS and progressive encephalopathy, **72**
Effect of antibody disclosure on subsequent sexual activity in homosexual men, **287***
Embryopathy, **214**
Evaluation of antiviral drugs and neutralising antibodies by microtiter infection assay, **288**
Hepatitis delta virus in four cohorts of homosexual men, **287**
Heterosexual spread in Edinburgh, **355**
Heterosexual transmission, **356**
Immunofluorescence tests for antibody and their value as confirmatory tests, **215**
Immunogenicity of reverse transcriptase: high levels of antibodies in sera of homosexual men, **73**
In bowel epithelium from patients with gastrointestinal symptoms, **355***
Infants born to seropositive mothers: multicentre European study, **72**
Infectivity: prospective study of homosexual men, **73**
Infertility and mechanisms of pathogenesis, **286**
Inhibition of replication in vitro by fusidic acid, **143**
In vitro production of specific antibody in children at risk for AIDS, **356**
Isolation from the placenta, **143**
Isolation from plasma during primary infection, **215**
Karpas cell test to detect HIV-2 antibodies, **73**
Long term evaluation of antigen and antibodies to p24 and gp41 in patients with hemophilia, **214**
Male to female transmission, **143***
Neuropathological changes in an asymptomatic seropositive man, **354**
Neutralisation of isolates by antiidiotypic antibodies which mimic T4 (CD4) epitope: potential AIDS vaccine, **215**
Non-cytocidal natural variants isolated from AIDS patients with neurological disorders, **72**
Pathogenesis: serodiagnosis and monitoring of antiviral therapy, **215**
P24 epitope marker to identify variants, **143**
Persistent antigenaemia in homosexual men: risk of ARC and AIDS, **142**
Persistent productive infection of human glial cells, **215**
Reduction in transmission among homosexual/bisexual men, 1982–1986: San Francisco men's health study, **72**
Resumption of production after infection of T lymphocytes in presence of azidiothymidine, **215**
Retinal infection by type I, **215**
Retroviral infections in The Gambia, **287**
Routine preoperative screening, **356**
Safe sex: suggested standards linked to testing, **73**
Seropositivity and development of AIDS or AIDS related conditions: San Francisco General Hospital cohort, **356**
Seroprevalence among childbearing women: blood samples from neonates, **355**
Simultaneous detection of antibody and hepatitis B virus surface antigen in human sera, **356**
Superinfection of a chimpanzee with a second strain, **215**
Surgical gloves as a mechanical barrier, **287**
Testing: changing trends at London STD clinic, **74**
Transmission, **214**
Transmission: alternate modes, **356**
Transmission by blood transfusions screened as antibody negative, **286**
Transmission from parents to only one dizygotic twin, **72**
Type I: functional regions of envelope glycoprotein, **143**
Type 2 in Britain: no evidence yet, **287**
Vaccine developments: perspectives, **215**
Zidovudine: effect on serum antigen levels in symptom-free subjects, **356***

HUMAN IMMUNODEFICIENCY VIRUS INFECTION
Abnormal sweat electrolytes in a child, **214**
Acute, associated with acute brachial neuritis and exanthematous rash, **214**
AIDS dementia complex as presenting or sole manifestation, **286**
Alteration in natural history of neurosyphilis, **69**
Among civilian applicants for US military service, **72**
And AIDS: AMA program, **143**
And routine childhood immunisation, **142**
Antibody response, **73** *(bis)*
Antigen detection, **287**
Asymptomatic, in homosexual man: unusual manifestations of secondary syphilis and abnormal humoral immune response to *T pallidum* antigens, **352**
Chronic vaginal candidiasis, **71**
Clinical, laboratory, and ancillary staff with accidental exposures to blood or body fluids, **73**
Clinical manifestations and their relationship to immune deficiency: multicenter AIDS cohort study, **142**
Correlation of serum antigen and antibody with clinical status, **214**
Decline of antibody reactivity to outer viral core protein p17: serological marker of disease progression, **287**
Decline of anti-p24 antibody precedes antigenaemia as correlate of prognosis, **287**
Dental professionals: low occupational risk, **287**
Dermatophytosis: study in homosexual men, **286**
Detection of early antibodies by ELISA, western blot and radioimmunoprecipitation, **143**
Diagnosis in seronegative homosexuals presenting with an acute viral syndrome, **143**
2′, 3′-Dideoxycytidine: single agent and alternating with zidovudine, **288**
Drug users and drug-using prostitutes in Amsterdam, **356**
Genital ulceration as risk factor, **356**
Group specific component: association of different allelic forms with susceptibility and clinical manifestation, **73***
Hepatitis B infection and sexual behaviour in women attending a genitourinary medicine clinic, **287**
Heterosexually acquired: III international AIDS conference, **214**
Immunological and clinical outcome: 31 months of follow-up in a cohort of homosexual men, **214**
Immunological consequences and vaccine development, **356**
Immunological study of the rectal mucosa of men, **287**
Immunology: an update, **143**
Immunology: III international AIDS conference, **143**
In doctors: patient safety, **214**

In infants negative for anti-HIV by ELISA, **72**
Increase in public awareness and anxiety, **74**
Infectious agents as cofactors, **72***
Intrathecal synthesis of specific IgG in syphilis, **352**
Neurological complications in lymphadenopathy syndrome, **286**
Neurological relapse after benzathine penicillin for secondary syphilis, **69***
Newborn, **355**
Obstetric and perinatal consequence: a review, **72**
Occupational risk in health care personnel caring for AIDS, **145**
Ophthalmic findings in a group of ambulatory patients, **141**
Paraproteinaemias in homosexual men, **141**
Pathogenesis, **143**
Perinatal: lack of evidence for craniofacial dysmorphism, **286**
Perinatal: specific neonatal antibody responses, **142**
Persistent *Campylobacter jejuni* infections, **354**
Persistent, in chimpanzees: serological responses and properties of re-isolated viruses, **143**
Pregnancy care, **214**
Pregnancy outcome, **286**
Prevalence over a 10 year period in rural Zaire, **287**
Primary: diagnostic value of specific IgM antibodies, **356**
Psychiatry, **71**
Pyomyositis, **71**
Retrospective seroepidemiology in Nairobi populations, **72**
Risk among laboratory workers, **214**
Salmonellosis, **214**
Seronegative secondary syphilis in patient with Kaposi's sarcoma, **211***
Serosurvey in parturients, **214**
Serotherapy in prevention and treatment, **215**
Serum β2-microglobulin, **287**
Sexually transmitted: long latency precedes overt seroconversion, **142***
Stages in progression in chimpanzees, **356**
STD clinics, **287**
Temporal relation of antigenaemia and loss of antibodies to core antigens to development of clinical disease, **142**
Treatable aspects, **215**
Type I: antibody-dependent enhancement, **356**
Uterine cervix, **355**
Virology: III international AIDS conference. **143**

HUMAN PAPILLOMAVIRUS (HPV)
Accumulation of RNA homologous to type 16 open reading frames in genital precancers, **286**
Cervical infections during pregnancy, **213**
Characterization of type 45, **286**
Colposcopic correlates of cervical infection, **213**
Demonstration of types 6 and 11 in juvenile laryngeal papillomatosis by in situ DNA hybridization, **286**
Detecting and typing DNA in cervical scrape specimens from women with cervical dysplasia, **213**
Detection of specific types in cervical scrapes, anal scrapes, and anogenital biopsies by DNA hybridization, **71**
DNA in female genital tract lesions, **213***
Evidence of viral infection and type 16 DNA sequences in CIN and normal tissue in the west of Scotland: treatment policy, **286**
Genital infections and cancer, **354**
Identification of E2 protein in genital tract tissues, **286**
Infection and CIN: natural killer cells, **141**, tissue macrophage response, **213**
Infection and low grade CIN: DNA analysis, **213**
Infections in women with and without abnormal cervical cytology, **141**
Integration of type 16 DNA sequences: genital tumor progression, **141**
Isolation of a novel type (51) from a cervical condyloma, **354**
Malignant progression of laryngeal papilloma associated with type 6 DNA, **354**
Methods for detecting DNA sequences in clinical specimens, **286**
Penile intraepithelial neoplasia in sexual partners of women with CIN, **213***
Trichloroacetic acid in cervical infection without dysplasia, **141***
Type 16 in vulvar neoplasia, **354**
Typing in the clinical evaluation of genitoanal warts: in situ DNA hybridization, **354**

HUMAN T-LYMPHOTROPIC VIRUS TYPE III (HTLV III) *See also* HUMAN IMMUNODEFICIENCY VIRUS; HUMAN T LYMPHOTROPIC VIRUS TYPE IV
Antibody detection in CSF patients with AIDS and pre-AIDS using a commercial test system, **143**
Severe herpes zoster ophthalmicus in young African adult as marker for seropositivity, **214**
Syphilis in infected male homosexuals, **211**

HUMAN T-LYMPHOTROPIC VIRUS TYPE IV
Absence of antibodies in six central African nations, **356**
And HIV in West Africa, **72**

INFERTILITY
HIV, **286**

INOSINE PRANOBEX
V acyclovir in first attack genital herpes, **71**

INTERFERON
Alfa: condylomata acuminata, **286**
Alfa-2a recombinant, in HIV associated thromobytopenia, **215**
And placebo: double-blind trial in recurrent genital herpes, **212**
Beta: female genital viral diseases, **145**
Human leukocyte, with adenine arabinoside monophosphate in chronic hepatitis B: trial, **144**
Leukocyte: first episodes of genital herpes in women, **212**
Loss of HBsAg in chronic hepatitis B virus infection, **74**
Topical: placebo-controlled trial in labial and genital herpes, **286**
Topically applied in genital herpes, **141**

INTERFERON GAMMA
Decreased production in condyloma acuminatum, **141**
Recombinant: response of atopic manifestations in AIDS, **71**
Recombinant murine: inhibits *C trachomatis* serovar L1 in vivo, **285**

INTERLEUKIN-2
Decreased production in condyloma acuminatum, **141**

Recombinant, in AIDS, **143**
ITRACONAZOLE
Maintenance treatment for cryptococcal meningitis in AIDS, **288**

KAPOSI'S SARCOMA (KS)
And AIDS: anemia and erythropoiesis treated with zidovudine, **357**
Simple and effective treatment, **74**
Upper gastrointestinal, in antibody positive patients without cutaneous disease, **286**
With HIV infection: seronegative secondary syphilis, **211***

LABOUR
Asymptomatic shedding of herpes virus, **354**
Spontaneous early preterm: mycoplasmas, ureaplasmas and chlamydiae in genital tract, **212**
LACTOBACILLUS
Relationship of vaginal species to preterm birth, **288**
LICHEN SCLEROSUS ET ATROPHICUS, **216**
In children misdiagnosed as sexual abuse, **74**
LONDON
HIV testing: changing trends at STD clinic, **74**
LYMPHADENOPATHY *See* PERSISTENT GENERALISED LYMPHADENOPATHY
LYMPHOMA
AIDS-related: prospective treatment trials, **215**

METRONIDAZOLE
Activity against *T vaginalis* clinical isolates, **71**
Amoxycillin and amoxycillin-clavulanic acid in clue-cell positive discharge: comparative study, **216**
And bioactive metabolites: susceptibility of *G vaginalis*, **74**
Cancer after exposure, **353***
In vitro susceptibility of *T vaginalis*, **353**
Plasma concentrations and vaginal content in *T vaginalis* infections, **353**
MIRIDAZOLE
Activity against *T vaginalis* clinical isolates, **71**
MOBILUNCUS
Characterization of anaerobic curved rods isolated from urogenital tract, **74**
MOLLUSCUM CONTAGIOSUM
Characterization of viral DNA and clinical features, **288***
MYCOPLASMA
Transmission rate from mother to newborn, **212**
MYCOPLASMA GENITALIUM
Antibodies in salpingitis, **71**
Prevalence determined by DNA probe in men with urethritis, **353***
MYCOPLASMA HOMINIS
Bacteraemia and pelvic infection in women, **71**
Chronic CNS infections in preterm infants, **285**
Extragenital infection: report of two cases, **353**
In urines of a non-venereal disease population, **71**
MYCOPLASMAS
In genital tract of women in spontaneous early preterm labour, **212**

NAIROBI
Retrospective seroepidemiology of AIDS virus infection, **72**
NEISSERIA
Pathogenic species: rapid identification, **212**
NEISSERIA GONORRHOEAE
Antigenic and structural differences among six proteins II expressed by a single strain, **139**
Auxotype/serovar diversity and antimicrobial resistance in two mid-sized American cities, **139**
Bactericidal properties of urine, **211**
Contraceptive sponge's protection, **145**
Evidence of serum antibodies before gonococcal infection, **70**
Host range of the conjugative 25·2-megadalton tetracycline resistance plasmid, **352**
Immunoelectron microscopic localization of outer membrane proteins II on the surface, **352**
Induction and repression of outer membrane proteins by anaerobic growth, **70**
Iron uptake from lactoferrin and transferrin, **352**
Lactoferrin secretion in human vaginal mucus, **212**
Multiple protein differences exist between type I and type 4, **352**
Outer membrane protein III, **284**
Pelvic inflammatory disease, **140**
Penicillinase producing: effect of spectinomycin on prevalence, **139**
Penicillinase producing: isolated in France from 1979–1986, **139**
Recombinant molecule from disseminating strain conferring bactericidal resistance, **212**
Reference strains used in development of serological classification systems, **284**
Restriction of plasmid DNA during transformation but not conjugation, **284**
Tetracycline resistant: spread outside the USA, **352**
Toxic effect of calcium alginate swabs, **284**
Urethral: prevalence among asymptomatic sexually active adolescent boys, **74**
NEONATES
Chlamydial conjunctivitis: long term follow-up, **352**
Herpes: type-specific antibodies to HSV-2 glycoprotein G, **285**
HIV infection, **355**
HSV exposure: routine viral cultures at delivery, **354**
HSV type 1 and type 2 encephalitis: neurological outcome, **285***
Preterm: chronic *U urealyticum* and *M hominis* CNS infections, **285**
Transmission rate of infections from mother, **212**
NEUROSYPHILIS
Alteration in natural history by concurrent HIV infection, **69**
NEW YORK CITY
Survival with AIDS, **214**
NON-GONOCOCCAL URETHRITIS (NGU)
Detection of leukocyte esterase in urine, **140**
Roxithromycin, **212**
Treatment with ciprofloxacin, **71**
NONOXYNOL-9
In vitro activity on McCoy cells infected with *C trachomatis*, **140**

NORTH AMERICA
Auxotype/serovar diversity and antimicrobial resistance of *N gonorrhoeae* in two mid-sized cities, **139**
Serologic and immunologic studies in AIDS, **72***

OPHTHALMIA NEONATORUM
Diagnosis, **216**
Gonococcal and chlamydial: prophylaxis, **352**

PELVIC INFLAMMATORY DISEASE (PID) *See also* SALPINGITIS
Ambulatory treatment with Augmentin with or without doxycycline, **353**
Associated with *N gonorrhoeae* and *C trachomatis*, **140**
Bacteriology and sequelae, **140**
Microbiologic and clinical study of placental inflammation at term, **140**
Microbiological and histopathological findings, **71**
Out-patient treatment with doxycycline, **353**
Postabortal: vaginal secretory IgA, *G vaginalis*, anaerobes, and *C trachomatis*, **71**
Serum CRP in diagnosis and treatment, **285***
Single agent therapy for acute polymicrobial infection, **140**
Ultrasonography in evaluation of adolescents, **212**
Uterine devices: recent developments, **140**

PENICILLIN *See also* BENZATHINE PENICILLIN
Identification of *T pallidum* binding proteins, **211**

PENIS
Cancer: smoking and sexual behaviour, **216**
Papillomavirus associated intraepithelial neoplasia in sexual partners of women with CIN, **213***
Topical self-treatment of warts, **141**

PENTAMIDINE
Aerosolized, for *P carinii* pneumonia in AIDS, **144**
Inhaled or reduced-dose intravenous, for *P carinii* pneumonia: pilot study, **144**

PERSISTENT GENERALISED LYMPHADENOPATHY (PGL)
Activated subpopulation of T8-bearing cells in homosexual men, **145**
Immunohistology: progressive lymph node abnormalities, **73**
Neurological complications of HIV infection, **286**

PINTA
Specificity of antibodies for antigens of *T pallidum* subsp *pallidum*, **284**

PLESIOMONAS SHIGELLOIDES
Causing proctitis and fatal septicemia in a bisexual man, **288**

PNEUMOCYSTIS CARINII PNEUMONIA (PCP)
Aerosolized pentamidine, **144**
Corticosteroids as an adjunctive therapy in AIDS, **74**
Diagnosis, **355**
Diagnosis: improved detection in sputum with monoclonal antibodies, **355**
Inhaled or reduced-dose pentamidine, **144**
Successful intermittent chemoprophylaxis for pneumonitis, **74**
Trimetroxate, **144**

PODOPHYLLOTOXIN
Topical self-treatment of penile warts, **141**

PREGNANCY
Care of HIV infected women, **214**
Counselling and screening for AIDS, **143**
False positive results of tests for syphilis, **70**
False positive syphilis reactions and anticardiolipin antibodies, **284**
First episode of genital herpes: effects on infants, **212**
Hepatitis B carrier: comprehensive antepartum screening, **74**
Late: group B streptococcal carriage, **144***
Normal and complicated: isolation of *U urealyticum* serovars, **285**
Outcome and HIV infection, **286**
Outcome: effect of hepatitis B antigenemia, **357**
Preterm: reduction of group B streptococcal infections, **144**
Screening for hepatitis B, **144**
Serosurvey of HIV infection in parturients, **214**
Symptomatic and asymptomatic cervical HPV infection, **213**
Type-specific antibodies to HSV-2 glycoprotein G, **285**

PROSTITUTES
Drug-using, in Amsterdam: HIV infections, **356**

RECTUM
Infections: comparison of *C trachomatis* serovars, **212**
Mucosa: immunological study of men with and without HIV infection, **287**

REITER'S SYNDROME
AIDS associated, **214**
C trachomatis causes seronegative arthritis in women, **353**
Treating, **212**

RIBAVIRIN
Treatment of AIDS and ARC, **215**

ROXITHROMYCIN
Non-gonococcal urethritis, **212**

SACCHAROMYCES CEREVISTIAE
Bread making as a source of vaginal infection: case report, **357**

SALPINGITIS
Acute: endometrial damage, **71**
Antibodies to *M genitalium*, **71**

SAN FRANCISCO
Men's health study, **72**

SCOTLAND, WEST
Evidence of viral infection and HPV type 16 DNA sequences in CIN and normal tissue: treatment policy, **286**

SEMEN DONORS
Potential: STD, **144**

SEXUAL ABUSE
Child: increasing rate of diagnosis, **145**
Childhood, and psychiatric diagnoses: relationship of chronic pelvic pain, **288**
Coexisting vaginal infections and multiple abusers of female children with genital warts, **354**
Diagnosis in children: DNA typing of genital warts, **141**
Genital findings in symptomatic and asymptomatic girls, **74**
Misdiagnosis: lichen sclerosus et atrophicus in children, **74**

SEXUAL BEHAVIOUR
Antibody disclosure in homosexual men, **287**

HIV infection and hepatitis B virus infection in women attending an STD clinic, **287**
Incidence of anal cancer, **216***
Penile cancer, **216**

SEXUALLY TRANSMITTED DISEASES (STD)
In potential semen donors, **144**
Preventive strategies for primary care physician, **144**

STD CLINICS
Antibodies to CMV, HSV and HIV, **357**
Field follow-up for patients with *C trachomatis* infection, **353**
HIV infection, **287**
HIV infection, hepatitis B virus infection and sexual behaviour in women, **287**
Screening for *C trachomatis*, **353**
Social behaviour among patients, **144**

SPECTINOMYCIN
Effect of use on prevalence of resistant *N gonorrhoeae*, **139**
Resistant gonococcal infection in US, 1985–86, **212**

STREPTOCOCCUS
Recurrent postcoital lower extremity erythroderma: streptococcal-sex syndrome, **74**

STREPTOCOCCUS, GROUP B
Carriage during late pregnancy, **144***
In the lower urogenital tract and late abortions, **288**
Reduction of maternal and neonatal infections in preterm pregnancy: rapid identification test, **144**
Transmission rate from mother to newborn, **212**

SURAMIN
HIV antigenemia in AIDS: ten-patient case-control study, **288**
In AIDS: US working group, **143**
Antiviral effects in AIDS, **143**

SWITZERLAND
Campaign against AIDS, **214**

SYPHILIS *See also* NEUROSYPHILIS; *TREPONEMA PALLIDUM*
Acquired, in late congenital syphilis, **69**
Antibodies to cardiolipin distinguished by ELISA and inhibition studies, **284**
Asymptomatic late: CSF evaluation, **211**
Early secondary: unusual central chorioretinitis as first manifestation, **352**
ELISA for detection of antibodies to VDRL antigen, **139**
Enzyme-linked immunofiltration assay for rapid serodiagnosis, **352**
Epidemic and its relation to AIDS, **286**
False positive reactions and anticardiolipin antibodies in pregnant women, **284**
False positive results of tests and pregnancy outcome, **70**
In incarcerated urban adolescents: prevalence and physical signs, **216**
In HTLV-III infected male homosexuals, **211**
Intrathecal synthesis of specific IgG in HIV I infections, **352**
Primary, in men: preliminary study of ceftriaxone, **70**
Primary and secondary: hair root studies, **69**
Secondary, in HIV infected patient: neurological relapse after benzathine penicillin, **69***
Seronegative secondary: in HIV infected patient with Kaposi's sarcoma, **211***

TETRACYCLINE
Host range of the conjugative 25·2-megadalton resistance plasmid from *N gonorrhoeae* and related species, **352**
In vitro evaluation against *C trachomatis*, **70**
Resistant strains of *U urealyticum*, **353**
Spread of resistance outside the USA, **352**
Suboptimal efficacy against vaginal *U urealyticum*, **71**

TINIDAZOLE
Susceptibility of *G vaginalis*, **74**

TREPONEMA PALLIDUM
Abnormal humoral immune response to antigens and unusual manifestations of secondary syphilis in an asymptomatic HIV infected homosexual man, **353**
Antigenic and structural characterization of Nichols strain endoflagella, **284**
Cell surface property changes during in vitro incubation, **139**
Detection by fluorescent monoclonal antibody test, **139**
From secondary syphilitic skin lesions: ultrastructural changes, **139**
Hyaluronidase facilitates dissemination, **69***
Identification of penicillin-binding proteins, **211**
IgM antibody detection in a modified ELISA, **69**
In leukoderma syphiliticum demonstrated by electron microscopy, **352**
In vitro assay to demonstrate high-level erythromycin resistance of a clinical isolate, **284**
In vitro culture system to determine MICs and MBCs of antimicrobial agents against subsp *pallidum*, **284**
Specificity of antibodies from pinta patients for antigens of subs *pallidum*, **284**
Subs *pallidum* and *T vincentii*: activation of classical and alternative pathways of complement, **139**

TRICHLOROACETIC ACID
In HPV cervical infection without dysplasia, **141***

TRICHOMONAS VAGINALIS
Activities of metronidazole and miridazole against clinical isolates, **71**
Cell culture compared with broth for detection, **71**
Detection of antigen in women by enzyme immunoassay, **140**
Effects of inhibitors of sulphur-containing amino acid metabolism on growth in vitro, **71**
In vitro susceptibility to 50 antimicrobial agents, **285**
In vitro susceptibility to metronidazole, **353**
NYH286 phenotypic variation and surface immunogens, **140**
Proteins involved in cytadherence, **285**
Treatment failure in female infections, **353**

TRICHOMONIASIS
Diagnosis: comparison of methods, **285**
ELISA for diagnosis in women, **212**
Vaginal: in vitro susceptibility of *T vaginalis* to metronidazole and treatment outcome, **353**

TRIMETROXATE
P carinii pneumonia in AIDS, **144**

TRISODIUM PHOSPHONOFORMATE *See* FOSCARNET

UNITED KINGDOM
AIDS surveillance, **214**
HIV-2 in Britain: no evidence yet, **287**

UNITED STATES
Chancroid: re-establishment of an old disease, **215**
HIV antibody testing at infectious disease teaching hospitals and Minnesota Hospitals, **356**
Provision and financing of medical care for AIDS in public and private teaching hospitals, **143**
Spectinomycin-resistant gonococcal infection, 1985–86, **212**
UREAPLASMA UREALYTICUM
Bacteraemia and pelvic infection in women, **71**
Characterization of tetracycline-resistant strains, **353**
Chronic CNS infections in preterm infants, **285**
Humoral response to polypeptides in women with postpartum fever, **140**
In urines of a non-venereal disease population, **71**
Serotypes isolated from pregnant women, **285**
Transmission rate from mother to newborn, **212**
Vaginal: suboptimal efficacy of erythromycin and tetracycline, **71**
UREAPLASMAS
In genital tract of women in spontaneous early preterm labour, **212**
URETHRA
Proximal: cryotherapy for condyloma acuminatum, **71**
C trachomatis and *N gonorrhoeae* in asymptomatic, sexually active adolescent boys, **74**
H ducreyi infection in men, **357**
URETHRITIS *See also* NON-GONOCOCCAL URETHRITIS
Men: prevalence of *M genitalium* determined by DNA probe, 353*
URINATION DISORDERS
Causes of frequency and dysuria in women, **74**
URINE
Sexual activity, contraceptive use and other risk factors for symptomatic and asymptomatic bacteriuria, **216**

VAGINA *See also* CANDIDIASIS; TRICHOMONIASIS
Assessment of microflora during tampon use, **216**
Bacteriology of flora during menstrual cycle, **216**
Bread making as a source of infection with *Saccharomyces cerevisiae:* case report, **357**
Coexisting infections and multiple abusers in female children with genital warts, **354**
Lactoferrin secretion in mucus, **212**
Parasitosis: routine cervical smears (India), **288**
Suboptimal efficacy of erythromycin and tetracycline against *U urealyticum*, **71**
VAGINITIS *See also* VAGINOSIS, BACTERIAL
Emphysematosa, **145**
High-frequency switching in Candida strains, **140**
Recurrent: localized allergic response, 357*
VAGINOSIS, BACTERIAL
Ciprofloxacin, **74**
Local treatment, **216**
Proline aminopeptidase activity as a rapid diagnostic test, **357**
Relationship to preterm birth, **288**
VIDARABINE PHOSPHATE
With human leukocyte interferon in chronic hepatitis B: trial, **144**
VULVA
HPV type 6/11 DNA in squamous carcinoma, 213*
HPV type 16 in neoplasia, **354**

ZAIRE
Rural: prevalence of HIV infection over a 10 year period, **287**
ZIDOVUDINE
Alternating with 2′, 3′-dideoxycytidine in severe HIV infection, **288**
And acyclovir: pilot study in AIDS and ARC, **356**
Anemia and erythropoiesis in AIDS and Kaposi's sarcoma, **357**
Associated nail pigmentation changes, **144**
Effect on serum HIV antigen levels in symptom-free patients, 356*
HIV antigenemia (p24) in AIDS, **288**
Low-dose: decline of HIV antigen levels in CSF, **357**
Resumption of virus production after HIV infection of T lymphocytes, **215**
Trial in AIDS and ARC: efficacy, **74**, toxicity, **74**

Genitourinary Medicine 1988;64:418–426
